iKnow NZ Limited specialize in the implementation of Knowledge Management Solutions. These include Document & Records Management, Workflow and Consulting.

A successful Knowledge Management solutions requires more than just implementing a technology. So we also manage the behavioral, cultural and organizational changes required to make your Knowledge Management solution successful.

### The iKnow Approach

Delivering the successful implementation of an EDRM system is not simply about installing software; There are many 'people, 'soft' or 'cultural change' issues that need attention in addition to numerous business and/or legislative considerations.

iKnow has a proven implementation methodology that is based on NZ and PMI standards, applies principals and adopts a pragmatic approach which will ensure your business requirements are successfully met.

### Optimize Decision Making

Competitive organizations use knowledge to optimize decision-making, inspire innovation, increase responsiveness, reduce costs and improve performance.

Knowledge can be your organizations most valuable asset if you learn to harness it. Technology is a piece of the knowledge solution, but the real key to success is implementing best practices for capturing, organizing and sharing high quality structured content.
